

wonderful pineapple

WE TRANSFORM PINEAPPLE
INTO MOMENTS OF JOY

About Us

The business of pineapple started from my grandfather, if there is no change, it will always be just an ordinary pineapple. So we decided to make pineapple great again. Let the world know that Malaysia's pineapple products are very delicious and famous.

In continuous learning and research and development, we already have a series of pineapple products that we are very proud of.

In 2021 we also got affirmation from the British World marmalade awards Competition.

We are the first company in Malaysia to be awarded the (BRONZE) in THE WORLD MARMALADE AWARDS

This picture above is designed around the story of our entire company

In Malaysia, apart from durians, it is difficult to find other fruits that can represent the country, let alone create outstanding brands. Our family has been growing pineapples for three generations. From a young age, we have had a special affection for pineapples. The previous generation simply engaged in basic pineapple trading, but in our generation, we are committed to innovation and change. All designs are original, and all products are developed independently by us.

As our first flagship store, Matrade is crucial. In the Matrade store, we can showcase this important Malaysian product to both the people of Malaysia and foreign tourists. Our products not only embody the creativity of Malaysians but also feature exquisite packaging, making them essential souvenirs for travelers visiting Malaysia.
